## DETAILED ACTION

### ***Information Disclosure Statement***

1. The Information Disclosure Statement filed 20 September 2004 has been considered but no references contained therein have been considered because they were already considered by the Examiner in a previous Information Disclosure Statement filed 13 August 2003.

### ***Allowable Subject Matter***

2. Claims 1-6 are allowed.
3. The following is an examiner's statement of reasons for allowance: Claim 1 is distinguishable from the prior art because it requires a "multipath canceller comprising an array of complex delay-Doppler shift coefficients . . . said array producing a residual from which . . . interferences from . . . fixed reflectors and . . . moving reflectors have been removed, said multipath canceller comprising a minimizer minimizing the mean square of said residual over . . . whitening filter coefficients and the said multipath canceller delay-Doppler coefficients" and further "restoring the original signal" after removing the residual from the detected signal. U.S. Patent No. 6,650,271 to Simone et al. (hereinafter "Simone") teaches a receiver which removes multipath signals using coefficient-based processing. However, Simone teaches the use of a multiple receivers, each having their own respective adaptive weight that is applied to the received signal and does not teach a "multipath canceller" as claimed in claim 1. Specifically, Simone does not teach the creation of a residual signal from an array of signals, each of which apply their own respective coefficient to the received signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

***Conclusion***

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Brian K Andrea whose telephone number is (703) 605-4245. The examiner can normally be reached on M-F 7:00-3:30.
